Julie Reece Deaver

What is this book about ?

Jamie has to leave behind her only friend, Webb, to go with her mother to Chicago. She misses him so much that while on her trip, she has realistic, intense daydreams about their adventures together. But the daydreams come at anytime, and are unstoppable. They are soon taking over Jamie's life. Jamie's psychologist helps her find out what's happening to her, and whether or not she's losing her mind...

What did you like/dislike about it?

This was a scary book. There were completely unexpected twists and turns. The best part of the book was the discovery of Webb's identity. The Night I Disappeared is an eerily good read, even if its vocabulary isn't very diffi cult.
